

# PRESERVATION MARYLAND

3600 Clipper Mill Road Suite 248  
Baltimore, Maryland 21211

*Dear Jared,*

When you walk through one of Maryland's state parks, you're not just surrounded by natural beauty—you're stepping into the living history of our state.

Scattered across these landscapes are 18th-century forts, forgotten homesteads, and centuries-old mills—places that shaped Maryland's story. **But hundreds of the more than 1,150+ historic treasures inside our parks are at risk of being lost forever.**

That's why Preservation Maryland has partnered with the *Department of Natural Resources* and *Maryland State Parks*, where we're currently working to identify, document, and restore historic sites within the state park system. Together, we're building a future where these landmarks are not only protected, but also accessible and meaningful for generations to come.

*But we can't do it without you.*

Your support helps us as we:

- Survey and safeguard historic sites across Maryland.
- Restore and interpret sites so they're accessible and engaging for visitors of all ages.
- Ensure every Marylander can connect with the places that tell our shared story.

This work is about more than saving old buildings—it's about honoring the people, places, and moments that define who we are. **Will you join us with a gift today?** As a sign of our appreciation, we've enclosed a limited-edition sticker so you can proudly display your support of Maryland's 140,000+ acres of diverse lands, from the Appalachian Mountains to the Chesapeake Bay.

***With your help, we can continue this vital work—one park, one story, one place at a time.***

With pride in our past and faith in our future,

Nicholas Redding  
President and CEO

P.S. America's 250th birthday is just around the corner. Help us make sure Maryland's historic places are ready to share their stories with pride.
