- Police Sergeant/Interim Chief of Police Rizer, Officer First Class Moretti and Police Administrative Specialist Rudy stated that Security Officer Billy Gilbert is doing a great job in Town. Sergeant Rizer stated that Security Officer Gilbert assisted Officer First Class Moretti in two separate incidents of the weekend.
- Council Member Kerns stated that the Town should be proactive and consider putting out a Request for Proposals for Security Officers Service for after the 60-day Emergency Agreement rather than waiting for it to expire. Interim Town Manager Miller will check with the Town Attorney to see what needs to be done.
- Officer First Class Moretti stated that there have been two recent malicious destructions of Town property in Shafer Park by juveniles – one being the destruction of a door with a large rock and the other being a juvenile walking around with a very realistic looking toy gun and the destruction of picnic tables. He stated that in both instances parents/guardians were notified and Juvenile Services will seek retribution. He further stated that it would be beneficial if the Town would consider placing signs in Shafer Park with wording that says, "Children 12 years of age and under must be accompanied by an adult while in the Park." Council agreed that the Park Board should be made aware of this recommendation and have input before any decision is made. Officer First Class Moretti stated that the second issue is with the three Air BnBs in Town. He stated that there have been issues with CDS and domestic violence at the rentals, and that one of the rentals is part of a property that has had 17 calls this year. Council suggested that staff check with Washington County to see what their Policy is for Air BnBs.

Out of Town Water and Sewer Service Connection Policy: Town Planner Bowen presented the draft Out of Town Water and Sewer Service Connection Policy for the Councils review and input. He stated that it is a Town Policy to provide Water and Sewer service to properties within the Town boundaries, however, due to public health concerns with karst geology in the area, the Town was required in the past to provide public Water Services outside of its boundaries. He further stated that there are a few houses that are 'out of Town' but that could have the ability to hook up to a Water line right outside of their property, noting that it is a good idea to create a Policy that addresses future connection to the Town's public Water System outside its boundaries. Town Planner Bowen stated that properties within the Town boundaries are required to follow the Subdivision Procedures in the Town Code for Water connections, but that the Town currently will not allow connections outside the Town boundaries to the Water System unless it has been determined that there poses a verifiable potential public health threat by the Maryland Department of the Environment or Washington County Health Department. He stated that a Special Exception can be made to connect to the Town's Water System for properties outside the Town boundaries that are adjacent to the Town's water lines with no greater than a 1-1/2" Water service connection at prevailing rates. Council asked that this draft Policy be discussed at the next Boonsboro - Keedysville Water Advisory Board's Meeting this month. **(NEW BUSINESS)**
