NEW BUSINESS

Next Generation 911 - Town/Washington County Memorandum of Understanding: Bud Gudmundson, *GIS Manager for Washington County*, Jennifer Kinzer, *GIS Coordinator for Washington County*, and Tom Brown, Assistant Director of Washington County's Emergency Management and Communications, attended the meeting to present the groundwork for the new infrastructure of the Next Generation 911 and the draft MOU between the Town and the Board of County Commissioners of Washington County for Addressing and Road Naming. Mr. Gudmundson stated that the MOU between the Town and the County is an agreement regarding the responsibility for assignment of site addresses and approval of proposed road names in association with the County maintained geographic information system, GIS, and address attribute database for

property located with Washington County, and that it will also be used by the Towns of Clear Spring, Funkstown, Hancock, Keedysville, Sharpsburg, Smithsburg and Williamsport. He stated that the County's GIS and address attribute database support the functions of the Washington County Emergency Communication Centers by providing a way to verify information contained within the Master Street Address Guide (MSAG). He further stated that the duplication of road names and the inconsistent number addressing has the potential to create confusion among emergency responders and slow the speed at which they can respond to emergency situations. Mr. Gudmundson stated that the County Commissioners feel there should be one addressing authority assessing road names and numbers while working with the Town Planners, noting that current road names will not be changed and that the naming and addressing only applies to new roads or extensions of existing roads. He further stated that addressing will be done in accordance with the County's system of 4-to-5-digit property numbers. Council Member Kerns voiced her concerns regarding Section 5 *New Road Names* and Section 7 *New Land Development Activity* giving the County complete authority to name and number the properties in the Town limits. Mr. Gudmundson stated that the Town would still have the ultimate say for road names, but that new development will have the County numbering system. Council asked to see a boundary map for the addressing and road naming and for additional time to review the MOU before formally approving it.

Resolution 2019-07; Boonsboro Safety and Risk Committee: Town Manager Mantello presented Resolution 2019-07; *Boonsboro Safety and Risk Committee* for the Councils review and input.
