601 General Regulations Applying to Required Off-Street Parking Facilities

- A. Existing Parking - Structures and uses in existence at the effective date this Ordinance shall not be subject to the requirements of this Article so long as the kind or extent of use is not changed, provided that any parking facility now serving such structures or uses shall not in the future be reduced below such requirement.
- B. Alteration in Use - Whenever a building is altered or enlarged in floor area, number of employees, number of dwellings, seating capacity or otherwise to create a need, based upon the requirements of Section 600, for an increase of ten percent (10%) or more in the number of existing parking spaces, the number of additional spaces to be provided shall be based upon the incremental change or enlargement.
- C. Conflict with Other Uses - No parking area shall be used for any other use that interferes with its availability for the parking need it is required to serve.
- D. Continuing Character of Obligation - All required parking facilities shall be provided and maintained so long as the use which the facilities were designed to serve still exists. Off-street parking facilities shall not be reduced in total extent except when such reduction is in conformity with the requirements of this Article in conjunction with a change in the nature of the use.
- E. ~~Joint Use~~ Sharing of Parking Facilities
 - 1. The Planning Commission may approve the sharing of parking facilities between one or more uses based upon a detailed parking study provided by the developer(s). The parking study shall demonstrate the number of spaces needed based upon: the type and intensity of all uses sharing the facility, the peak hours of usage, hours of operation for each use, number of employees for each use, and the type of vehicular traffic using the facility. Changes in any of the conditions evaluated as part of the parking study after final plan approval may require re-approval of the plans by the Planning Commission.
 - If a shared parking facility is approved, the following conditions must be met:
 - i. The uses must either be located on the same property or off-site parking facilities may be shared when located within 500 feet of the major point of pedestrian access for each use sharing the parking facility.
 - ii. Adequate pedestrian access that is compliant with State and Federal accessibility code requirements must be provided from the parking area to each major point of pedestrian access for each user of the shared parking area.
 - iii. The number of spaces needed shall be determined by the Planning Commission. All other requirements outlined in this Article shall also be met.
 - iv. Perpetual joint use parking easement shall be signed by all participating members and recorded at the Office of The Clerk of Circuit Court for Washington County. A copy of the recorded document shall be submitted to the Planning Staff prior to final site plan approval.

- [1. ~~Two or more uses may provide for required parking in a common parking lot; the total number of spaces in such lot shall not be less than the sum of the spaces required for each use individually, unless such lot is provided as specified in subsection E.(2), as follows.~~]
2. Up to fifty percent (50%) of the parking spaces required for (a) theaters, auditoriums, bowling alleys, or private clubs, and up to one hundred percent (100%) of the parking spaces required for churches or meeting halls, may be provided collectively and used jointly by (b) banks, offices, retail stores, repair shops, service establishments and similar uses not normally open, used or operated during the same hours as those listed in (a); provided, however, that a written agreement assuring the continued availability of such parking areas shall be properly drawn and executed by the parties concerned, approved as to legal sufficiency by the Town Attorney, and filed with the application for the zoning permit.
- F. Mixed Uses - Where a permitted use contains or includes more than one of the types of uses identified in Section 600, the number of parking spaces required shall be the sum of the computed requirements for the separate types of uses.
- G. Location of Parking Spaces - Required off-street parking spaces shall be on the same lot or premises with the principal use served, or where this requirement cannot be met, within four hundred (400) feet walking distance of the principal use. A written agreement assuring the continued availability of such parking areas shall be properly drawn and executed by the parties concerned, approved as to legal sufficiency by the town attorney, and filed with the application for the zoning permit.
- H. Fractional Spaces - Where the computation of required parking spaces results in a fractional number, only the fraction of one-half or more shall be counted as one
- I. Drive Thru/In Facilities - [~~At no time shall vehicular traffic utilizing the drive thru/in facilities of a commercial establishment interfere with the traffic flow pattern or decrease the design capacity of the off-street parking area serving the commercial establishment. In addition, at no time shall the aforementioned vehicular traffic interfere with the function or decrease the capacity of any public street.~~]
In addition of the parking spaces requiring in the Section, uses with drive-up/drive thru facilities shall provide on-site spaces sufficient for vehicles queuing to be served by or otherwise waiting to do business at the facility.
- i. Off-site queuing is prohibited.
 - ii. Each space that is provided for queuing shall be at least 20 feet in length and 9 feet in width.
 - iii. These spaces shall not interfere with, block, or prevent the use or operation of parking spaces, parking aisles, access drives, or entrances.
 - iv. The following uses shall provide the adequate on-site space for queuing (these spaces are in addition to the space at the transaction point):
 - a. Banks/Financial Institutions: 3 spaces per drive-up/drive-thru station including Automated Teller Machine Stations
 - b. Car Wash: 3 spaces per washing station, 2 per drying station, and 1 space per vacuum/detailing station
 - c. Gas Station: 1 space per side, per gas pump
 - d. Pharmacy or Drug Store: 3 spaces per station
 - e. Restaurant: 6 spaces per station, 4 of which must be located in the area approaching the order board
 - f. Other uses not specifically listed that offer drive-up/drive-thru services shall provide queuing spaces as determined by the Zoning Administrator based on the most similar use(s) listed above.

- J. TC Parking Exemption - Commercial uses located within the town center-zoning district are exempt from the off-street parking criteria of section 600.
- K. Landscaping and Buffer Area – ~~[In addition to specific requirements of this ordinance, the Planning Commission may require effective vegetative screening or by such other device as may be deemed appropriate in areas between off-street parking and/or loading areas and adjacent properties. In all cases screening shall be continuously maintained]~~ Landscaping and Buffers shall meet the requirements of Ordinance 2009-04, an amendment to the Land Subdivision Regulations.
- L. Modifications- The Board of Zoning Appeal may reduce the number of required off-street parking spaced upon a finding that sufficient spaces open to the public are available within five hundred (500) feet to meet the intent of this section.

201.89 Gross Floor Area: The sum of the gross horizontal areas of the several floors of a building or structure from the exterior face of the exterior walls, or from the centerline of a wall separating two buildings, but excluding any space where the floor to ceiling height is equal to or less than seven (7) feet.

201.90 Net Floor Area - That portion of any building, improvements, or use of land which is included in rental areas or normally used as a part of the quarters of any owner or tenant of such premises. Areas commonly excluded in the calculation of Net Floor Area may include entry halls or foyers; elevator shafts; stairways; janitor, electrical, or maintenance rooms; public restrooms, etc. Common areas open to the public shall be included in the calculation of parking space requirements.
